

# Natural Mineral Pigment Workshop

## *Let's make natural mineral pigments and paint with them!*

Kouan Hashimoto, Professor Emeritus of Joshibi University of Art & Design, will instruct how to make natural mineral pigments out of stones in New York. For nearly 40 years, while creating Nihonga paintings, Prof. Hashimoto has been conducting research on natural mineral pigments.

Let's paint pictures on postcards with the pigment you created. Draw your own design, or select and draw a design from Statue of Liberty, Thirty-six Views of Mount Fuji, Mona Lisa, geometric design or a Japanese motif Prof. Hashimoto designed. Bring pebbles of memories or stones in New York. We hope you will enjoy Art while playing with stones.

# 6/22/2019 (Sat) 1:30pm–3:00pm

## The Nippon Club Bar & Grill (4th Fl.)

Members **\$15/** Guest **\$20** Capacity: 20 participants
